

# Knights Corona activity protocol

25-09-2021

## General rules

This protocol is subservient to the Scala protocol and the regulations from the RIVM. In case of conflict those rules take precedence.

All members are required to stay at home if one of the following situations is applicable to them:

- They have one of the following symptoms: a cold, cough, a sore throat, runny nose, sneezing, trouble breathing, loss of smell and or taste, fever or an increased body temperature, that cannot be explained with allergies or otherwise.
- If a person in their household has a fever and/or trouble breathing in the last 24 hours.
- If they have been positively tested for the coronavirus up until one week after the last time they had symptoms.
- If a person in their household is positively tested on the coronavirus. After 10 days after the last contact with this person, while that person still had symptoms, they can come to Luna. The number of days may change, follow RIVM guidelines.
- If they have been instructed that they need to stay in self isolation.

Everybody will be required to wash hands when leaving their home and disinfect their hands before entering Luna. Disinfectant will be provided at the entrances and strategically placed around the building.

Board members of Scala and all Scala associations may send Knights members home when they violate the agreements from this document.

## Activities

### Registration

To better organise the activities and make sure we have adequate space for safe behaviour we will still require members to register on squire.

If a member is present without a registration This is noted and the member is given a warning. If the member visits a third time without registration or more they will be sent home.

The healthcheck has been abolished. However, members are still required to stay home if they have any of the mentioned symptoms.

## Covid-responsibility

Every activity needs to have a covid responsible person. This is the main person responsible for maintaining the rules and checking entry. For roleplay sessions this will be the GM. For all other activities this will either a board member or someone else as described in the appendix

## Living room

Because of scala regulations there is no sign in or covid check required for the living room. However, only Knights members or TU/e or Fontys students are allowed to be present and join activities. The Knights board will not actively monitor this.

## Sessions

Because sessions are in an enclosed room the GM can choose to either continue without checks if all members are Knights or TU/e or Fontys students. If not they are still allowed to host activities as long as they use the coronacheck. All participants including Knights members and Students need to have their QR-code scanned. The covid-responsible person, Generally the GM is responsible for installing the scanner app and checking the codes.

## Other activities

Other activities will be handled by the scala protocol, bespoke regulations may be discussed with the Knights board.

## Presence in Luna outside of activities

From 25 September Knights members are allowed to be present in Luna as long as they follow the rules. They do not need to check in or show a QR-code. Note that hubble is treated as a separate part with its own rules.

## Appendix: Order of covid-responsibility

Go down the list until someone is present. That person is covid-responsible. Covid responsibility may always be voluntarily transferred to someone if announced at the activity.

### **Sessions:**

1. The GM,
2. The Organiser (for gm-less systems)
3. The Oldest participant present
